Eric Mintel Quartet on tour

"Eric Mintel and his jazz quartet dazzled our audience with well-crafted renditions of the music of Dave Brubeck and others. The musicianship is first class and the guys were one of the easiest and classiest group of artists we have ever worked with. There were long lines at the CD table at intermission and at evenings end! What a great night!"

Michael Duncan, Director - Oconomowoc Arts Center, WI

The Eric Mintel Quartet isn't a cover or tribute band playing rote renditions of familiar songs, but a group of highly skilled musicians breathing new life into jazz classics. Their take on Dave Brubeck's music is well worth the price of admission, but they aren't a one-trick pony. When they played "Take the A Train," their interpretation took the audience's breath away. Then they played "Caravan" as a very rewarding encore. The four of them are so talented; I think they could make great jazz out of any song. In their hands, jazz is certainly not dead or a museum piece. Highly recommended. Andy Barnett McMillan Memorial Library, WI

"As long as the music attracts dedicated young musicians like Eric Mintel and the Eric Mintel Quartet, Jazz will continue to thrive and progress as a voice of freedom!"

- Dave Brubeck

Entrepreneurship in Jazz by Eric Mintel

Eric Mintel will do a talk on the “Business” of jazz music and what it takes to be a professional working jazz musician. Eric will cover topics such as bookings, venues, press kits, interviews, touring and more. This talk can also be opened up to Business majors. See testimonial below from Newberry College, SC.

On April 20, 2016, Newberry College was happy to host a lecture and performance by the Eric Mintel Quartet. The lecture was given by Eric Mintel and focused on his experiences in the music world concerning the business side of music which is often overlooked in the academic world. Mr. Mintel was able to impart to our students, from both the music department and the business department, the benefits of his wisdom and knowledge in this area. He discussed topics such as scheduling, networking, and contract agreements – all areas that professionals dealing with the music world need to be aware of and knowledgeable about. Several students remarked to me afterwards how helpful the information was to them. We would not hesitate to ask Mr. Mintel to present another program on this topic in the future.
